TAPE DISPENSER

Tape Dispenser can be customized to accept ½" or 1" tape.

GENERAL FEATURES

- If using automatic feeder, when one piece of tape is removed, the unit will automatically feed and cut the next piece at the present length.
- The tape length is easily seen on the LED display, and operation is simple – press the CM key or MM key to set the length (Setting limit : 20 mm to 9999 mm)
- If a piece of long tape is needed, press FEED key for desired length, then press CUT key to cut.
- The blade unit can be removed and replaced easily. (Tape jamming is also easily fixed by removing the blade unit).
